- **Airplanes are the only way to fly.**

Actually, there are many different ways to fly. In addition to airplanes, you can also fly in helicopters, gliders, hot air balloons, and even rocket ships.

- **All airplanes have wings.**

Not all airplanes have wings. Some airplanes, such as VTOL (vertical takeoff and landing) aircraft, can fly without wings.

- **Airplanes need a runway to take off and land.**

While most airplanes do need a runway to take off and land, there are some airplanes that can take off and land on water or even on grass.

- **Airplanes are dangerous.**

Airplanes are actually one of the safest forms of transportation. In fact, you are more likely to be injured in a car accident than in an airplane crash.

- **Pilots are the only ones who can fly airplanes.**

While pilots are the ones who typically fly airplanes, there are other people who can also fly airplanes, such as flight engineers and air traffic controllers.

- **Airplanes are expensive.**

Airplanes can be expensive, but there are also many affordable airplanes available. In fact, you can buy a used airplane for less than the price of a new car.

- **Aviation is a male-dominated field.**

While aviation has traditionally been a male-dominated field, there are now more and more women working in aviation. In fact, there are many successful female pilots, engineers, and air traffic controllers.

- **Aviation is a boring field.**

Aviation is anything but boring. There are always new challenges and new things to learn. If you are interested in a career in aviation, there are many different opportunities available.

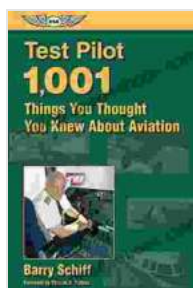

- **Aviation is only for the wealthy.**

Aviation is not just for the wealthy. There are many ways to get involved in aviation without spending a lot of money. For example, you can volunteer at a local airport or take flying lessons.

- **Aviation is a dangerous field.**

While aviation can be dangerous, it is also a very safe form of transportation. In fact, you are more likely to be injured in a car accident than in an airplane crash.

These are just a few of the things you thought you knew about aviation general aviation reading series. If you are interested in learning more about aviation, there are many resources available online and at your local library.
