File size : 14161 KB

Screen Reader : Supported

Print length : 322 pages

What You'll Need:

- A variety of coloured paper squares or circles
- A variety of shapes (e.g., triangles, squares, circles, rectangles)
- A glue stick
- A piece of paper or cardstock

Instructions:

1. Start by having your child sort the paper squares or circles by colour. 2. Next, have them sort the shapes by type. 3. Once your child has sorted the squares and shapes, have them create a pattern on the piece of paper or cardstock. 4. Encourage your child to use their imagination and be creative!

Variations:

This activity can be varied in many ways to make it more challenging or to adapt it to the needs of your child. For example:

* You can use different colours and shapes of paper. * You can have your child create patterns with more than one colour or shape. * You can have your child create patterns that are more complex. * You can have your child create patterns that follow a specific rule, such as alternating colours or shapes.

Benefits of This Activity:

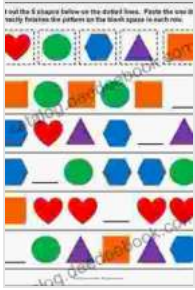

This activity is a great way to help your child develop their:

* Problem-solving skills * Critical thinking skills * Spatial reasoning skills *
Fine motor skills * Creativity * Imagination

It is also a great way to help your child learn about colours, shapes, and patterns.

:

This colour, shape, pattern maths activity is a fun and engaging way to help your child learn and develop important math skills. It is a great activity for preschoolers, kindergarteners, and elementary school students ages 3-8. So give it a try today and see how much your child enjoys it!
