This epic collection of novels transports readers to a vast and intricate universe where galactic dominance, treachery, and the enduring power of family intertwine in a breathtaking tapestry.

The Ancillary Justice Trilogy: A Foundation of Galactic Empire and Rebellion

The Fallen Empire Omnibus saga takes flight with the Ancillary Justice trilogy, a groundbreaking series that has captivated readers and critics alike. These books introduce us to Breq, a former starship captain forcibly

turned into an ancillary – a consciousness embedded within a starship's systems. Breq's quest for vengeance against those who betrayed her leads her to unravel a web of political intrigue and galactic warfare.

- **Ancillary Justice:** The inaugural novel introduces readers to Breq, the wronged starship captain, and her quest for retribution. As Breq infiltrates the society that wronged her, she uncovers a conspiracy that threatens the stability of the galaxy.
- **Ancillary Sword:** The second installment delves into the intricacies of galactic diplomacy and military strategy. Breq's journey takes her to the heart of the empire, where she must confront both her own demons and the complexities of war.
- **Ancillary Mercy:** The epic to the trilogy finds Breq confronting her past and the choices that have shaped her destiny. In a climactic battle for the fate of the galaxy, Breq must embrace her true self and the power of forgiveness.

The Red Queen's War: A Prequel of Betrayal and Rebellion

The Fallen Empire Omnibus saga expands its reach with *The Red Queen's War*, a prequel that delves into the origins of the empire and the seeds of rebellion. This standalone novel tells the story of Jalan Kedger, a young army officer who finds himself caught between loyalty to his empire and the growing tide of dissent.

Jalan's journey exposes the corruption and tyranny that lies beneath the empire's facade. As he navigates a treacherous path of betrayal and sacrifice, Jalan grapples with the consequences of his choices and the true meaning of rebellion.

The Book of the Ancestor: A Tale of Family, Sacrifice, and Redemption

The Fallen Empire Omnibus saga concludes with *The Book of the Ancestor*, a prequel series that explores the origins of the empire's ruling dynasty. This series introduces readers to Nona Grey, a young woman who is destined to become the heir to the empire.

- **Red Sister:** The first book introduces Nona to the Convent of Sweet Mercy, a secretive and deadly school for young women. As Nona trains to become an Initiate, she discovers the harsh realities of power, ambition, and the lengths people will go to achieve their goals.
- **Grey Sister:** The second installment follows Nona as she embarks on a perilous quest. Accompanied by a loyal band of sisters, Nona confronts the horrors of war and the sacrifices required to protect those she loves.
- **Holy Sister:** The epic to the trilogy finds Nona facing her destiny and the true nature of power. In a climactic confrontation that will shape the fate of the empire, Nona must choose between her own ambitions and the greater good.
